

The application form generated by the platform must contain all the requested information (including the grades used as ranking and tie-breaking criteria) and must be signed. Incomplete forms will not be taken into consideration.

Please complete the application form carefully, including all required data and your preferred options, as no subsequent changes can be made. Regarding the choices, please note the following clarifications:

- Rank your options in order of preference (state-funded / budget, tuition fee-paying, distance learning) to maximize your chances of admission;
- Candidates who have already studied their first year or all years on a state-funded (budget) place at another specialization/faculty can exclusively select tuition fee-paying or distance learning options;
- Candidates from the Republic of Moldova who do not hold Romanian citizenship and a Romanian ID card can only apply for tuition fee-paying or distance learning places, and are required to take the admission exam.
